Valmaseda on a Trip.

HAVANA, April 28.—Valmaseda will leave to-day to visit the military lines.

MILITARY MATTERS.

Maximo Gornix commanding 700 insurgents, invaded the jurisdiction of Guines. They were repulsed by Colonel Sanz and Bariary, and one of their officers captured. At San Juan de la Puerea the volunteers under Fray Beneto attacked Gomez in the Sierra Verde mountains just reached Santa Fe and gives the following information. He left Lamesville on the afternoon of the 24th. News had then reached there that one of the coaches of the company had been found on the road between Lamesville and Tucson burned. The body of the driver was also found with his breast cut open and his heart taken out, split into pieces and laid over his face. Four ranchmen at San Pedro on the route were also killed. Also six emigrants coming from Tucson to New Mexico were killed. Some of the captured mail had been found with the checks cut to pieces, and was brought into Messilla by one of the conductors. The Indians, a few days since killed two Mexicans and a German at Lorie Mountain and wounded another American near Silver City.

CHICAGO.

Secretary Boutwell.

CHICAGO, April 28.—Secretary Boutwell is in town and made a speech to-day to the Board of Trade. His remarks had no relation to financial or political matters.

THE RAILROAD WAR.

A bill has been filed in the United States Circuit Court by the Chicago, Rock Island and Pacific Railroad Company of Iowa against the Peoria and Rock Island Valley Railroad Company; the Toledo, Peoria and Warsaw Railroad Company; the Peoria and Rock Island Railroad Company and other railroad corporations and individuals. This is an injunction bill to restrain the defendants from operating cars upon the main track originally built by the Peoria and Bureau Valley Railroad Company; and from interfering with the complainants' use thereof. The complainant railway sues as a non-resident under its Iowa charter.

ICE BREAKING.

A dispatch from Hancock, Lake Superior, received to-day says the propeller Norman got in this morning and broke six miles of ice in Portage Lake. There is great rejoicing, as the steamer last Saturday left Marquette for Silver Island, on the north shore of Lake Superior, and she returned to Marquette with a hundred tons of silver ore, consuming four days on the trip.

THAT ADJOURNED SESSION.

A Springfield, Illinois, dispatch says Governor Palmer, while dissenting *in toto* from holding an adjourned session of the legislature in Chicago, is understood to hold it competent for the General Assembly to do it by a joint resolution, they being judges of the emergency which will justify it.

STEEL WORKS.

Arrangements have been completed to add the Bessemer steel works to the rolling mill works at Joliet, Illinois. Some of the capitalists of the Pennsylvania Railroad Company have agreed to furnish two million dollars to the enterprise.

BOSTON.

Labor.

BOSTON, April 28.—The twentieth annual report of the Massachusetts Bureau of statistics of labor was submitted to the Legislature to-day. The subject of a stringent ten hour factory law and half time schools for children, as well as several other measures of interest to the working people are now before the Legislature for consideration.

CONGREGATIONAL HOME.

The Congregationalists of Boston and vicinity have raised $150,000 for the purchase of an estate on Beacon street to be converted to the uses of that denomination and called the "Congregational Home." $20,000 additional are to be raised for building purposes.

EVANSVILLE.

Suicide.

EVANSVILLE, April 28.—A special dispatch to the *Journal*, from Uniontown, Kentucky, states that Hutton Martin, of the firm of Walker, Martin & Co., shot himself through the head yesterday evening. His standing in the community was such that his suicide caused a general suspension of business.

COLUMBUS.

The Legislature.

COLUMBUS, April 28.—Another ineffectual effort to pass the Appropriation bill took place in the Senate to-day. The day was consumed in the House by reading the journals for the last ten days.

NEW YORK.

Pennsylvania Central Purchases—The Cattle Plague—Getting Ready—Improving the Water Front—A "Presbyterian House."

NEW YORK, April 28, 1871.

RAILROADS LEASED TO THE PENNSYLVANIA CENTRAL.

The united railroad companies of New Jersey, comprising the New Jersey Railroad and Transportation Company, Camden and Amboy Railroad Company, the Philadelphia and Trenton Railroad, and the Delaware and Raritan Canal Company, have been leased by the Pennsylvania Railroad Company, which agrees to pay 10 per cent. per annum on the capital stock, and to assume all their obligations.

GETTING READY.

The Erie Railway Company gave orders yesterday to have all the unused locomotives put in a condition to begin hauling coal by the first of next month. There is great rejoicing among employees. Many of the engineers, conductors, firemen and brakemen have made only half time during the suspension of coal mining, while the others have been altogether idle. During the summer of 1870 the regular trains running between Hawley and Port Jervis carried 620 cars of coal per day. Nearly all of this was shipped to Newburg or Jersey City, and belonged to the Pennsylvania Coal Company. A large quantity was also carried on the ordinary freight trains to points along the line. It is expected that the rolling stock will prove inadequate to the demands which will be made upon it by the coal traffic the present year. A vein of anthracite coal has been discovered in a stone quarry at Monroe, Orange county, a station on the Erie railroad. There are valuable iron mines at this point. Experienced geologists says that there are indications of the existence of a coal bed below the level of the vein. A company has organized to make further investigations.

SUSTAINED.

Judge Blatchford to-day sustained Jay Gould's demurrer to the suit of the English Erie stockholders, holding that Charles Burt cannot bring suit, and that consequently, because he was joined with others as plaintiffs, the bill cannot be sustained. The other grounds of the demurrer were dismissed. The result is that the English stockholders are so far defeated, and must amend their bill, which Judge Blatchford granted leave to do, before the case can proceed. The decision is also fatal to the Ramsey suit against the Erie railway, for it rules the plaintiff who was a stockholder cannot maintain a suit even though owning stock.

WITHOUT FOUNDATION.

The statement that serious charges have been made of a nature to affect the standing of the Knickerbocker Life Insurance Company of this city is found without foundation. The movement was instigated by a number of policy holders whose policies have lapsed and which the company refused to restore because the risks at issue had become impaired and unsafe by reason of diseases. The company has sustained a careful examination by the Superintendent of Insurance. The result, which will be published in a few days is to sustain fully the claims of the company to confidence and support.

IMPROVING THE WATER FRONT.

The plans of the Department of Docks for improving the water front of this city, from SIXTY-first street, on the North river, to Fifty-fourth street, on the East river, were yesterday submitted to the Commissioners of the Sinking Fund, and approved by them. The plans will not be ready for general inspection for a month to come.

BURNED.

Bouchers hotel at Union Hill, New Jersey and the adjoining dwelling were burned this morning by an incendiary fire. Loss $10,000. The incendiaries also destroyed the house of Peter Kerrigan and the stables of Patrick Kelly with five horses in Jersey City. Loss $35,000. Eight persons narrowly escaped death.

DIED SUDDENLY.

Gardiner Spring, Jr., a well known lawyer, son of the Rev. Dr. Spring, died suddenly at his residence in this city this morning. Joseph W. Scott, the oldest member of the New Jersey bar and formerly Grand Master of the Masons of that State, died at New Brunswick last night, aged 93.

A PRESBYTERIAN HOUSE.

The Presbyterians propose to erect in this city a "Presbyterian house" suited to the uses of their denomination and arrangements have been nearly completed for the purchase of lots and buildings on the northeast corner of University Place and Ninth street.

THE CATTLE PLAGUE.

The cattle plague has broken out among the large droves of cattle in West Chester county. The disease invariably terminates fatally. Considerable alarm exists.

BOUNTY FRAUDS.

Thomas Hackett, formerly an attache of Marshal Rynders' office, and arrangements have been nearly completed for the purchase of lots and buildings on the northeast corner of University Place and Ninth street.

SOLD.

The club house of the New York Yacht Club on State Island was sold to-day for 16,000 dollars.

SANTA FE.

Indian Attacks.

SANTA FE., N. M., April 27.—The Daily *Post* has the following correspondence from La Messilla under the date of April 22. Mr. Cosgrove of the firm of J. F. Bennett & Co., left here this morning for the east to look after the last two coaches, as they have not arrived. It is reported, and it is doubtless true, that they have both been captured by the Indians and all on board killed. Every account from the west says the Indians are getting worse and worse, both on and off the road. They have been killing and robbing right up to Las Cruces and a party of soldiers and about fifty citizens are now out in pursuit. Last week the Indians ran off all of Mr. Meads' and some other cattle to about a mile from the town. Nothing has been heard of them since. Things are coming to a focus in this section of the country. The Indians seem more determined than ever to annihilate the whites of Southern New Mexico and Arizona, and unless some measures is given pretty soon, it really seems that they have good grounds for hoping to accomplish this end. The Indians seem determined to entirely interrupt the mails between this place and Tucson, and thereby cut off communication between the two sections of the country.

MORE OUTRAGES.

LATER—Mr. Hantz, conductor of J. F. Bennett & Co.'s S. O. M. and Express Lines has just reached Santa Fe and gives the following information. He left Lamesville on the afternoon of the 24th. News had then reached there that one of the coaches of the company had been found on the road between Lamesville and Tucson burned. The body of the driver was also found with his breast cut open and his heart taken out, split into pieces and laid over his face. Four ranchmen at San Pedro on the route were also killed. Also six emigrants coming from Tucson to New Mexico were killed. Some of the captured mail had been found with the checks cut to pieces, and was brought into Messilla by one of the conductors. The Indians, a few days since killed two Mexicans and a German at Lorie Mountain and wounded another American near Silver City.

LOUISVILLE
CEMENT.
The Best--The Cheapest.
The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.
It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.
The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it to the principal markets at prices which make it the most available and economical for all classes of work.
The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.
At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders than the foundation of every good house should be laid in this Cement.
A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

OPEN.

The harbor of Kiel is open for navigation.

VERSAILLES, April 27, *via* LONDON, April 28.—M. Thiers, in a speech to the Assembly today, tells the country that the situation is painful. French blood is still flowing that it is necessary to know that the denouement is near. All are doing their duty, especially the army, to which he alluded in terms of high eulogy. It is said Thiers commended Chevalier as without fear and without reproach, who completely unfettered in his actions, has now commenced the investment of the works of Paris and commenced active operations. Fort Issy had been silenced and Les Moulin Saquet captured.

We, continued the speaker are not assailants we are defenders of law and order. We wish conciliation but we also wish to save liberty from despotism and from unbridled license. After eloquently defending Republicanism in the Assembly, M. Thiers concluded as follows. "The insurgents are isolated and if France is with the Government and Assembly in our efforts to combine unity with liberty."

THE BUDGET ATTACKED.

THE HOUSE OF COMMONS.

In the House of Commons last night D'Israeli, notwithstanding the concession of the Government, made an unsparing attack on the Budget. He said the Government, in frantically abandoning its other proposals to save a tax of sixpence on incomes, had abandoned its dependence on direct taxation. While he deprecated further imports on agriculture, he equally deplored leaving the deficiency to increase year by year. He said the Chancellor of the Exchequer in 1869 erred in giving up indirect taxes, and in now going to replace them by an addition to direct taxation.

Chancellor of the Exchequer Lowe defended the reconstructed Budget and accepted the postponement of its consideration to Monday next.

The Weather Report.

WASHINGTON, April 28, 1871.

THE WEATHER.

Synopsis of the past twenty-four hours: The barometer has risen slowly with a falling temperature on the Pacific coast, but has fallen with a rapid increase of temperature at the Gulf and Atlantic stations. The area of lowest pressure is now in Upper Canada. The rains which on Thursday evening prevailed on the south Atlantic and on the lower lakes have ceased entirely in the former districts. At present they are confined to the eastern Atlantic coast, with occasional local rain in Western Pennsylvania and Wisconsin. Clear or clearing weather in southern and western Kentucky. The barometer has fluctuated somewhat in the central and southern regions. It has risen on the upper lakes, but now is generally quite low and falling east of the Mississippi and south to Kentucky and Western Florida.

Probabilities.—It is probable that fresh winds from the southwest and northwest will prevail from Pennsylvania west and south to the Mississippi and on the lakes. Small local storms will probably pass over the middle and eastern States, with cloudy weather Saturday.

HANG OUT your flags and banners on Monday, and thus contribute to the joy and success of the jubilee occasion of our German fellow citizens

IT IS announced that the Cincinnati *Gazette* will to-day present the name of the sterling old patriot, Hon. Benjamin F. Wade, for the Republican gubernatorial nomination of Ohio. Should he consent to accept the honor, his election would be a foregone conclusion, for our sister State has no more able, patriotic or popular citizen.

THE magnificent and palatial steamboat, the Great Republic, built at such an immense cost at our port several years ago, is to be sold at public auction on this day week at St. Louis, in order to satisfy debts held against her. This fate of a noble boat seems to confirm the idea that extravagantly built boats will not pay on our rivers, the interest of the immense outlay of capital consuming the larger portion of the profits.

JAMES M. MASON, of Mason and Slidell notoriety, is lying at the point of death at his residence in Virginia. His departure a number of years ago would have secured for him a brighter record in history than he can now leave behind him. He was one of the most dangerous of rebels, because of his ability and attainments, and through his exertions the Confederacy was greatly sustained and strengthened. The only really good thing he did during the rebellion was to victimize the English government into taking stock in the stability of the rebel government to such an extent as to become its largest creditor.

THE NATIONAL MILITARY GUARD of Pennsylvania is assuming formidable proportions, and the Military spirit is running very high in all parts of the Commonwealth. Philadelphia is about to organize the fifth brigade, which will be made up with colored troops, who will fight nobly, should their services ever be needed. It is a good motto, "in time of peace, prepare for war," but let us hope that our State or country may never have the occasion to use in other manner than for dress parade and civic displays, the powerful military organization which is so steadily growing up in our own and neighboring Commonwealths.

OUR GALLANT REPRESENTATIVE in Congress thus figures in the brief biographical sketches of the members of the XLIst Congress: "James S. Negley, of Pittsburgh, was born in Allegheny county, Pennsylvania, December 22, 1826; was educated in the Western University; served in the Mexican war in the 1st Pennsylvania volunteers; entered the Union army as brigadier general, April 19, 1861; organized and equipped a brigade of troops with a battery of artillery and joined General Sherman with his brigade in October, 1861; received special commendation for the manner in which he defended Nashville in 1862; was promoted to major general for defeating Breckinridge's corps at the battle of Stone river and for gallantry on that field; participated with credit in the campaigns of Tullahoma, Alabama, and Georgia, and was elected to the Forty-first Congress as a Republican, receiving 15,175 votes, against 10,696 votes for Burt, Democrat. *Re-elected.*"

THE coolness with which the Repesentatives of this State voted themselves seven dollars per day from April 7th to the close of the session is only equalled in the doings of the Albany Legislature. These gentlemen were willing to serve the people for one thousand dollars, be the term long or short, but once in power it seems as though they cared for none but themselves. True, most of them knew that seven dollars per day is more than they can earn at home, and we suppose go on the principle of "making hay while the sun shines." The action of Thursday looks very much like no adjournment of this honorable body till midsummer. The people object decidedly to these gentlemen voting from $20,000 to $50,000 out of the Treasury into their own pockets, and the fact that it passed on a *viva voca* vote shows conclusively that they were afraid to go on the record in favor of this swindle. True, Mr. Josephs was in the chair, which was all that was wanted to rush such bills through, but Speaker Webb knew bravely well, what he was doing when he called such a man to preside, and should be held accountable for this action.

BALTIMORE AND PITTSBURGH.

Now since the interests of Pittsburgh and Baltimore have been wedded together by the completion of the Connellsville Railroad, the two cities will enter into closer communion with each other, and not a great while must elapse until the rich fruits of the union shall be made manifest to both. We have much to do in order to make our friends of the Monumental City better acquainted with us as merchants, manufacturers and producers. We must let them know what we can do and how it is to their interests to become purchasers for the many articles we have for sale. Pittsburgh must advertise herself well and properly in Baltimore. Our manufacturers must introduce themselves and their wares to the tradesmen of our new ally in business, and make them familiar with their names, addresses and specialties. To accomplish this in the best and most satisfactory manner, the columns of a widely circulated and influential newspaper must be used, and such a journal is found in the Baltimore *American and Commercial Advertiser*, established in 1774. It enjoys an exceedingly large circulation for its morning, afternoon and weekly editions, and is one of the best advertising mediums in the country, going into thousands of house holds, stores and workshops of the South and West. Its aid should at once be sought by our business men who desire to secure the new trade which will flow into our city now since an unbroken railway connection has been made between Pittsburgh and the seaboard. The advertising rates of the *American* are very just and reasonable, and we feel we are conferring a favor upon our friends in recommending it to their patronage.

REACTION.

It appears that the constituents of the North Carolina Legislature, which has just adjourned, do not look with much favor on the proceedings of that sagacious body. A correspondent of the *Tribune*, who is evidently familiar with the state of the political atmosphere in that region, says, that notwithstanding the "Conservative Democracy" took great credit to themselves for the impeachment of Governor Holden, their "confidence in the value of the services" rendered in that matter was only "apparent," and despite their efforts to conceal it there is an "under current of fear that the people will not approve of their course." The Legislature wasted the public time and treasure without accomplishing anything for the welfare of the State, redeeming the pledges given prior to their election, or carrying out the issues upon which their canvass was conducted.

The Legislature was elected with the understanding that the taxes were to be reduced, and every legislative enactment was to look towards the benefit of the people. These things however were entirely overlooked. Rabid partisanship ruled the Assembly, and now its members return to their constituents, with much misgiving as to how their legislative conduct will be received.

The correspondent informs us that he traveled with one of the Senators on his return home, and observed that at every stopping place he was anxious to elicit the sentiments of the people in relation to the doings of the Legislature, and its protracted sessions. And, so far as the sentiments were expressed, they inspired with anything but hope and confidence. It could not be otherwise. The Democracy always make good promises and lead the dear people to hope that they will study nothing but the promotion of their best interests. These promises they seldom redeem, and never where they have the power to promote partisanship and aggrandise self. When or where have they ever legislated only in the interest of their party? A New York Democratic organ promises that when that party shall have come into power there will be reduced taxation, a revival of the shipping interests, and a thousand and one other things which will inure to the best advantage of the nation. No one believes that Democracy, if in power to-day, would achieve any results that would benefit the nation. James Buchanan assumed the reins of government when the country was at peace. The National Treasury was then overflowing. But before he surrendered the reins of government, in obedience to the imperative demand of the people, the nation was in debt, and money could not be borrowed at any rate of interest.

The present Administration is rapidly reducing the public debt and enhancing the national credit, both at home and abroad. Let the Democracy assume the governmental power, and we will soon have the history of the Buchanan Administration repeated, even to the increase of the public debt, and another war!

The sample given in North Carolina is a sufficient indication of what would befall us under the exercise of unlimited and uncontrolled Democratic legislation, *ex uno disce omnes*. Let us hope, however, that it is a moral and not a mere partisan conscience that produces so much dread and anxiety in the minds of the North Carolina Legislators. From what the *Tribune* correspondent says we are led to believe that reaction has already taken place in the popular mind, that North Carolina is beginning to see that her interests would be better subserved in the hands of another party than that of the "Conservative Democracy."

SHALL WOMAN MURDER?

The conviction of Laura Fair by a California jury for murder in the first degree has somewhat surprised the people of the country, but all right thinking persons applaud the verdict and award the jurors the credit of having set a much needed example. It will be remembered that this fair, frail convict, whose life has been one continuous volume of genteel pollution, she having figured in adultery, polygamy and divorce, and finally murder, seduced from virtue and honor and duty to his wife and little ones a foolish old man named Crittenden, whom she publicly shot down for his infidelity to her, even while he, a husband and father, was in the circle of his own family. It is high time that the women of our land should learn that human life is too sacred to be triflingly dealt with and taken in satisfaction for real or fancied wrongs. True, there is no blacker crime in the lists of sin than seduction from virtue and betrayal of an innocent and confiding woman by the libertine, and it is also true that the statutes do not contain penalties severe enough for the punishment of such villany. But in many cases, and conspicuously so in that of Crittenden, men are seduced by women, and although public opinion invariably settles against the man, he is really the one to be pitied. There are many such women in the land as Laura Fair, whose whole life study is to seduce and ruin, rob and destroy weak men, and if they succed in all this and escape the law, as they invariably do, they should not be permitted to add murder to their other crimes and then be excused because they are women, by sentimental juries. We hail the verdict of that San Francisco jury with pleasure, and even though she be a woman, will shed no more tears over the execution of Laura Fair than we would over that of the most hardend male criminal in the world. If women shall have the pleasure of slaying men, let them also have the sport of hanging at the rope's end. A few more such righteous verdicts may teach some wholesome morals to people who are ever ready to clothe the iniquities of women with the mantles of charity, pity and sympathy.

THE following we take from the Philadelphia *Ledger's* money article of the 27th inst. As there has been a great deal of newspaper controversy in regard to these several matters, the *Ledger* can be relied on as true, and settles the matter:

CLEVELAND AND PITTSBURGH ROAD.

Upon inquiry as to the truth of the statemeats contained in the Pittsburgh papers relative to the Baltimore and Ohio and Lake Shore Railroads controlling the Cleveland and Pittsburgh Road, we find the following to be the facts: 1. That no such offer as that recited was ever made to the Pennsylvania Railroad Company. 2. That the contract is not terminable in one year, but continues for seventeen years, and cannot be terminated without the joint consent of both companies. 3. That the contract is enforceable in either Pennsylvania or Ohio. 4. That the Pennsylvania Railroad Company, the lessee of the Fort Wayne, has no desire whatever to purchase the stock. 5. That they will not lease it for the next seventeen years, unless it can be made very largely to their interest to assume the responsibility. 6. That all speculations in that stock recently have been upon the stories of adventurers in Wall street and elsewhere. 7. That neither the Baltimore and Ohio Railroad Company nor the Lake Shore is likely to buy the stock of a company situated by contract as the Cleveland and Pittsburgh is at present. The managers of both lines are far too prudent to indulge in any such enterprise.

STATE DEBT INTEREST.

About the beginning of the present month the State Treasurer gave notice to the Farmers and Mechanics' National Bank of this city, the fiscal agent of the State, to take all of the 5-10 years 6 per cent. loan of the State that should be offered for redemption at 103 and accrued interest, and all of the 6 per cent. war loan at the same premium, and accrued interest *payable in gold*. Under this order the bank here has been redeeming bonds and paying accrued interest in *gold* up to the 25th instant, when the order was countermanded as to the payment in gold. The decision of the United States Supreme Court, as foreshadowed, reversing the judgment of the Court requiring coin payment on all debts created prior to the legal tender law, is thus early availed of, and now, and for the future, all the State interest will be paid by the State Treasurer in legal tender currency only. It is probable, too, that the Commonwealth will at once make preparation to pay off at par the war loan, which matures on the 1st of August, 1871. The new Treasurer comes into office on Monday next, and the announcement of his purpose to this effect will most likely be one of his first acts.

THE "UNITED COMPANIES."

At a meeting of the President and Directors of the Pennsylvania Railroad Company held yesterday, to consider the pending proposition to lease the "United Companies" of New Jersey for a fixed sum of money, equal to 10 per cent. per annum on the capital stock, a special Committee of the Directors, including the President, was appointed with directions to negotiate a lease on that basis, the terms when agreed upon to be submitted to the Board of Directors for approval. On the part of the United Companies it will be submitted to the shareholders. It is generally believed that the New Jersey works will very soon pass to the control of the Pennsylvania Railroad Company.

RELIGIOUS INTELLIGENCE.

Decidedly the best specimen of "Beecher Gospel," we have ever seen of the noted preacher on the heights of Brooklyn, is an account of his experiences in the ministry. Commencing his ministerial course at Lawrenceburgh, Indiana, he gradually assumed more liberal political and doctrinal views of the New School party, and was unsated, and then went to Indianapolis. From this point he left for Brooklyn in 1847, and at once entered upon a new career on the *role* of an extreme radical. The motives, he frankly confessed, were to prevent people from being deceived, and he therefore flung out right and left and spoke his mind.—This we suppose he regarded as the true type of Congregationalism—liberty for a minister to act as he may see proper.—He says in this famous interview, "there were several seasons of the year when I made it a special point to be combative. Just before election day was one of these. But it had the effect of weeding out 'every man who were not ready to go the whole figure' and keep with us."

Rev. Dr. Ellwood, who was elected Professor in the Western Theological Seminary, Allegheny City, and Secretary of the Presbyterian Board of Foreign Missions, has decided to accept the Professorship, and he is expected to enter upon his duties at the opening of the next term.

The American Baptist Home Mission has recovered by law, a legacy of twenty thousand dollars, which had been refused on the ground that the codicil in Mr. Harris' will had not been properly executed.

The annual gathering of the American Congregational Union promises to be a grand affair, at Brooklyn, May 17th. Dr. Noah H. Schenck will represent the Episcopalians; Dr. J. Hyatt Smith, the Baptists, and Dr. E. Eggleston, the Methodists. Dr. Ray Palmer, Dr. H. M. Scudder, and other distinguished persons will also participate in the exercises.

Bishop Whipple, of the Episcopal Diocese of Minnesota, has been invited to take charge of the Diocese of Honolulu. But it is thought his services in Minnsota cannot be spared at this time.

The *Independent* gives an interesting summary, prepared by Rev. Asa Bullard, in which it is demonstrated that the proverb that "ministers and deacons' children are worse than other children," is false and unjust. In four hundred and forty-eight families of ministers and deacons there were twenty one husdred and one children over fifteen years of age, of whom one thousand four hundred and fourteen were hopefully pious, ninety-three were in the ministry or fitting for it, and only *thirty-four* dispisted. And all the remaining children, with very few exceptions, were respectable and useful citizens.

The *Golden Age* appears to be consid erably exercised, because a Unitarian clergyman, Rev. E. J. Galvin, visiting Nassau with his invalid wife, goes to the Episcopal church communion table, was informed that it was contrary to the regulations of his Church to admit to that service any one who did not accept Jesus as the incarnate God. The *Age* uses some expletives of an unlovely type.

At the close of the war there were ten thousand Baptists in West Virginia. It is estimated there are at the present time twenty thousand, and better organized than heretofore.

According to the declaration of a Jewish Rabbi, in a lecture recently delivered in Newark, New Jersey, the promised land is wherever Jews are free and happy, and that the Jewish nation itself is the Messiah that will lead all the world to the kingdom of the one and true God.

The *Liberal Christian*, defines the doctrine of the Unitarians in regard to Christ, and it ought to know, that the question of Christ's nature is left perfectly open. They do not reject any who accept Jesus Christ as Lord and Master in any sense, leaving interpatations and explanations to each dinciple's own mind and conscience. Large portions of the Unitarian body in all ages have been Arians, and if not Arians, have rejoiced in a Christ something more than human.

Bishop Pierce, of the Methodist Episcopal Church, South, referring to preaching, says the preachers are corrupted and the Church nearly ruined by the reports of big sermons by which nothing is achieved. "I would not go," he says, "one of Jeremiah's naughty figs for the flashing rhetoric which play like sheet lightning about the summer clouds. I want the bolt that strikes and rends and burns. What of grace, style, elocution, if penitence sheds no tear and faith feels no rapture?"

The thirteenth General Assembly of the United Presbyterian Church of North America, will meet on the fourth Wednesday (24th) of May, at Xenia, Ohio, and be opened with a sermon by the Rev. J. R. Johnston, the alternate of the late Moderator, Rev. Thomas S. Kendall, D. D.

The Synod of the Reformed Presbyterian Church (O. S.) will hold its next annual session in this city, beginning May 24th. It is expected to be a large meeting of unusual importance and interest.

The New York *Tribune* replying to a sharp criticism of "A Unitarian" asserting that the advantages of the Young Men's Christian Association were denied to men of his faith, says he is mistaken, and that he can have all the advantages of that Association without inquiry or scruple; but its control is reserved to the Orthordox—very properly in its judgement. It thinks that as they raised the money and finished the admirable building, they should manage it. It suggested the panacea that if the Liberals would like to manage one, there is ample room for another, and they know how it is to be had.

At the Chapel Hill University, in North Carolina, there were six hundred students in 1860. Now there are ten. The *Baptist Record* ascribes the change to political presentation.

The Methodist Episcopal Church North has one hundred and one institutions of learning which employ seven hundred and nineteen instructors. There are twenty-seven Universities and Colleges and five Theological Seminaries, one of which is a mission institution in Germany.

The reunited Presbyterian Church expended through seven Boards last year more than a million of dollars, and yet out of the four thousand five hundred churches, three thousand reported no contributions to five of the seven Boards, and about eighteen hundred gave no offerings to either home or foreign mission.

About seven hundred Congregational Churches, since 1853, have been aided in erecting houses of worship by the American Congregational Union. Most of these churches are in the interior and the West.

Geo. H. Stuart, in giving his testimony in the late "Church case" in Philadelphia, swore that he never sang a hymn in a Reformed Presbyterian church except on one occasion, some years ago, in Rev. Dr. McLeod's of New York. Strange.

The Border Claims.

The Philadelphia *Ledger* says: The committee appointed by the Senate of Pennsylvania to consider the petition of five hundred citizens of Chambersburg, asking to be paid for their property destroyed by the rebel raiders from 1861 to 1864, have made a long and interesting report on the subject. The report, which is signed by four of the five members composing the committee, says that the aggregate amount of the claims will not exceed $2,800,000, including losses already paid by the United States, and the sum of $560,000 for damages at Chambersburg, paid by the State of Pennsylvania, under the act of February 15th, 1866. A bill is reported providing for a careful revision of the claims by the Courts, and for the payment by the State of the interest only on the amount awarded. The bill further provides that the State shall become the owner of the claims, shall demand payment of them from Congress, and shall then pay over the amount recovered to the respective sufferers. The repayment by Congress of the $500,000 already distributed by the State of Pennsylvania is also claimed, and a demand upon the United States for this sum is also authorized.

"ON the occasion of the eclipse of the sun in December last, the moon, when observed through the telescope, appeared of a green color. During the eclipse of 1860, the lunar surface was brown. In connection with these facts, the *English Mechanic* quotes the following remarkable statement concerning a change of the moon's color, made by Lambert, in the year 1774. "The moon, when it stood vertically over the Atlantic ocean, received upon its night side the green terrestrial light which is reflected toward her, when the sky is clear, by the forest districts of South America."

IMPORTANT TO THE RUPTURED.

If there is one thing more than another that requires skill and exactitude in the fitting, it is in the application of Trusses and appliances for hernia or rupture. If you will read over the health reports now and again, you will see cases reported "died of strangulated hernia." Now every one of these cases could have been relieved by the application of a proper truss. What is the value of a few dollars to the cost of a human life? Many people do not know where to get such appliances. We will tell you—Dr. Keyser, at 167 Liberty street, is the best place in the city—in fact, we can say without bias, in the country. Every kind of rupture can be relieved by him, and in many cases a thorough cure can be obtained The Doctor has made the fitting of instruments for hernia the study of his life, and it ought to be a matter of satisfaction to the afflicted to know where perfect relief can be procured. A prevalent error on the part of very many persons is to mistake other appearances for rupture, which never need be the case by one skilled in the application and schooled in the anatomy of Rupture. Of a truth it is too serious an affliction to be in doubt about. Our readers will cut this out and remember the place. Dr. Keyser's, 167 Liberty street.

TRY IT.

It is amusing that the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of Hostetter's Bitters, all would know that its effect is to prevent disease.

At certain seasons the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, bilious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest disciples of the old medical dogmas will at least admit that a tonic and alterative, compounded of approved herbs, roots and barks can do no harm, while the testimony of thousands invites a trial of its virtues.

Vigor is the thing most needed in these cases as well as in dyspepsia and nervous affections, and Hostetter's Bitters is the safest, surest and most wholesome strengthening preparation that human skill has yet concocted.

Hundreds of physicians have abandoned all the official receipts and prescribed this harmless tonic as a preventive and cure for all cases of chills and fever.

Imperial Cough Syrup

Has given relief to thousands who have used it, and the proprietor is persuaded that it has the power to impart benefit that cannot be claimed for the cough mixtures in general use.

Most of the mixtures sold for coughs are composed of spiritsous and inflammatory articles, which, while they give little relief, really do harm.

THE IMPERIAL COUGH SYRUP.

Contains no spiritnous ingredients whatever, and may be used in all cases not requiring active medical treatment.

Lindsays Impr'd Blood Searcher.

Cures Erysipelas, Scrofula, Ulcers, Cutaneous Diseases, Sore Eyes, Pimples on the Face, Scald Heads, Mercurial Diseases, Debility, Salt Rheum, etc.

Johnson's Rheumatic Compound.

One house in Massachusetts sold fifty bottles JOHNSTON'S RHEUMATIC COMPOUND with the agreement, NO CURE NO MONEY REFUNDED, and had only three bottles refunded. Why endure aching limbs and stiff joints when there is such a certain remedy.

HELMBOLD'S
Fluid Extract Buchu

HAS ACQUIRED A
WORLD WIDE FAME.

All of my preparations are meritorious. A period of twenty years has PROVED THIS to be the case.

See remarks made by Benjamin Travers, F. R. C. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic, with this invaluable attribute, that it is applicable to the state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious

H. T. HELMBOLD,
Esteemed Friend:
I congratulate you on having the handsomest and at the same time the MOST EFFECTIVE PILL that I have ever known for the purposes intended.

H. T. HELMBOLD WM. P. WARNER & CO.

Will remark in conclusion that his Remedies are the result of long and careful study. The Fluid Extracts have been before the public twenty years; the sale of them in that time proves their value All have been benefitted by them who followed my instructions, and to-day they stand UNEQUALLED in the extent of their sales and UNSURPASSED by any Medicament in the Dispensary of the United States, not excepting a single HERB. ROOT, PLANT, or scientific preparation.

Pharmaceutical I claim all mine to be, and have never patented a single one.

All Stand on Their Merits.

The Pill I have thought of offering to the afflicted for ten years.

They are now perfect, and I shall stake my time, money and fame on their effectiveness. The inviting style in which the Pill itself is made, the bottle, label, wrapper, all show with what care they have been prepared. After examination, no English or French preparation will show greater care, and I am really proud of them.

Instead of the nauseous-looking, carelessly prepared Pills vended generally and put up in wooden boxes, and made generally or offered by those having no experience as physicians, druggists, or manufacturers of medicines.

Test the medicine offered by

Your obedient servant.

MONEY AND COMMERCE.

NEW YORK, April 28, 1871.

Gold opened at 111, declined to 110¾, advanced to 111¾, closing strong at the latter figure. The Assistant Treasurer paid out $470,000 on account of the May interest, making a total of $4,000,000. Shipments to-morrow estimated at $1,500,000 to $2,000,000. Loans made at from 1 per cent. for carrying to 1 per cent. for use. Clearances about $42,000,000. Governments opened steady but closed strong at about ¼ advance; the principal purchases having been made by foreign bankers. Stocks opened steady, after the first call declined a little, but almost immediately rallied to the opening prices; later in the day there was another sught decline, but at the close the market was strong and had advanced from 1 to 2 per cent.; the advance was particularly marked in Lake Shore, New York Central, Ohio and Mississippi, Rock Island and Northwestern. Express stocks strong; United States extremely so; the Bears covered some of their stocks at an advance, but still large short interest is uncovered. The Bulls seem to have complete control of the market, and with easy money and short interest to assist them, we predict higher prices. The *Post* says the indications are that the lowest prices for the time being have been seen; the market closed up firm and active. Money easy at 5@6 per cent. State securities dull and lower on Tennessees and new South Carolinas; Missouris strong.

NEW YORK, April 28—12 M.—Crude, 13c; nominal; refined, 24c; unchanged, with slightly better feeling, though as yet there are no transactions.

6 P. M.—Market quiet and prices re-main unchanged; very little doing to-day; crude, 13c, and nominal; refined on spot, 23¾c; cargo lots, 23c; one sale of 2,500 bbls at 23c.

TITUSVILLE, April 27, 9 P. M.—The market opened quietly to-day at the closing prices of yesterday. During the day a shade firmer feeling was apparent, and more inquiry made in the market. Considerable activity prevailed, and the aggregate of reported transactions for the day reached about twenty-five thousand barrels, or $2,000,000. Loans estimated at $1,500,000 to $2,000,000. Loans made at from 1 per cent. for carrying to 1 per cent. for use. Clearances about $42,000,000. Governments opened steady but closed strong at about ¼ advance; the principal purchases have been made by foreign bankers. Stocks opened steady, after the first call declined a little, but almost immediately rallied to the opening prices; later in the day there was another sught decline, but at the close the market was strong and had advanced from 1 to 2 per cent.; the advance was particularly marked in Lake Shore, New York Central, Ohio and Mississippi, Rock Island and Northwestern. Express stocks strong; United States extremely so; the Bears covered some of their stocks at an advance, but still large short interest is uncovered. The Bulls seem to have complete control of the market, and with easy money and short interest to assist them, we predict higher prices. The *Post* says the indications are that the lowest prices for the time being have been seen; the market closed up firm and active. Money easy at 5@6 per cent. State securities dull and lower on Tennessees and new South Carolinas; Missouris strong.

The Granite State, from Portsmouth, arrived and departed. She re-shipped some 20 tons of freight at Beilaire by rail.

The Brill, Capt. M. A. Cox, is announced to depart for Nashville to-day without fail. She is an excellent low water boat and is admirably adapted to the times. Adam Jacobs, Jr., is in charge of the office.

The Juniata, now laid up at Wheeling, will come down the last as soon as there is a possibility of her getting through.

The Rover and Wild Duck, for St. Louis, are announced to depart just as soon as there is sufficient water. The Rover has had her cargo on board for sometime.

The Wabash and Lorena are en route for this port; also, the tows, Comet, Collier and Mary Davage.

The two large government warehouses and the platforms surrounding at Sioux City are full of supplies for the several military posts in the northwest. There are in the warehouse some 6000 sacks of corn, 600 barrels and 1000 sacks of flour; a large amount of medical stores; 400 bales of clothing; about 200 cases of hats, caps, boots and knapsacks; lumber for warehouses at Camp Baker, Forts Stephenson, Randall, Rice, Sully, etc; wagons, wheels, stokes, etc; a large quantity of up a good circulation of the blood. The patients must begin in a small spirits—be determined to get well. This has a great deal to do with the appetite and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in most others, is sinful. Dr. Schenck's permanent retirement to the Faculty of his own cure was in these words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained Dr. Schenck's remedies; I now offer to the public, and they made a perfect cure of me. I seemed to me that I could feel them penetrate my whole system, and as they ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

"I was then a mere skeleton, beside, my cough, fever, pains and night sweats all began to leave me, and my appetite became a great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh to more than my former size.

"I was weighed shortly after my recovery," added the writer, "and I found that, though being like a mere skeleton my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office No. 15 North Sixth street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish advice by letter must inclose $5. The Respirometer will be charged $5. The Respirometer examines the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and the result will be the rest, excepting that in some cases the Mandrake pills need to be taken in increased doses: the three medicines needed are a accompaniment rather than simple instructions that accompany them. The seaweed tonic is for nourishing health; liver is the most w lcome symptom. When it comes, it is well on the way to the complete restoration of good cheer. Good blood at once follows, the cough loosens the night sweat is abated, in a short time both of these horrid symptoms are gone for ever.

Dr Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative the Mandrake pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in an of its forms.

Prices of the Pulmonic Syrup and Sea-weed Tonic are $1.50 a bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers.

Lost.—Yesterday afternoon, about one o'clock, a little girl while passing along Penn street, dropped a pocket book containing ten dollars, and did not discover her loss until she reached home. The money belonged to her mother, a poor widow woman, who had just received it for work, and had intended with it to pay her rent. It was all the money she had, and her daughter, knowing this acutely, will relieve the distress of a very worthy woman by leaving it at No. 467 Penn street.

In a New Place.—Mr. George W. Biggs the well known jeweler has refitted and refurnished the store room No. 159 Smithfield street, formerly occupied by Hunter & Co., in an elegant manner and to-day will be ready to receive his friends and patrons. He has just returned from New York where he purchased a large and fresh stock of fine and fashionable jewelry which he offers at very reasonable prices. Mr. Biggs and his elegant new quarters and examine the new stock he has just opened.

U. L. D. P. A.

Notices were being delivered yesterday to the members of the U. L. D. P. A. to attend an adjourned meeting of the Association at Michael Grogban's' No. 23 Diamond, on Tuesday next at two o'clock. It is intended that eminent counsel shall be engaged to further the interests of applicants for license.

Fell From a Wall.

Yesterday afternoon David Whitford a bricklayer engaged in building a house at Bloomfield, fell from a wall which he had been erected two stories high and struck with his side against a railing breaking several ribs and injuring himself internally. He was taken home in the patrol wagon. Seventeenth ward and medical aid summoned. His recovery is considered doubtful.

Hand Crushed—Caught Between Cars.

Yesterday an employe at the Keystone Bridge Works, named James Davis, had his hand badly crushed by a sledge hammer. It is probable that three of the fingers will have to be amputated.

William Sturgeon, a brakeman on the Pennsylvania road, was seriously bruised yesterday, by being caught between a couple of cars at the Outer Depot. His injuries are not considered fatal.

"Les Literary Society."

Last evening this flourishing organization gave an exhibition in the 17th ward school house before a large audience who seemed well pleased with the performance. The programme embraced declamations, essays, dialogues and vocal music, forming a pleasing variety and an agreeable entertainment. The songs "Driven From Home" and "The Photograph" were especially deserving, as was also the "stump speech," by W. P. Brewster. All were creditable, however, to the young performers.

The society is composed of some very excellent young men and is in every way deserving the confidence and commendation of the friends, as expressed so heartily last evening.

Coroner's Inquest.

The Coroner yesterday evening held an inquest on the body of Henry Mellon, which was found among the ruins of the fire that occurred on Thursday night on the corner of Townsend and Pasture streets, an account of which was published in our issue of yesterday morning. There were no new facts elicited at the inquest, except that a woman named Montgomery had assisted Mellon to carry out one box of tools. Mellon then returned into the burned house to try and save the remainder, against the remonstrances of some of his friends. It is likely he was suffocated by the smoke, and by no means fell a victim to the flames. A verdict was returned in accordance with the facts.

New Schedule—Pittsburgh & Connellsville Railroad.

We invite attention to the new Time Table of this road, dating from Monday the 1st of May. A note-worthy feature, one of very great local and general interest indeed, is that the new Schedule embraces among others. "the Baltimore Express through to Baltimore daily at 6:45 A. M.," the Pittsburgh & Connellsville Accommodation," a new Train leaving at 4:15 P. M. and arriving at 8:30 P. M., and the Cincinnati Express" at 11:55 A. M., and that the Cincinnati Express," mail and Pittsburgh Express through to Baltimore daily and West connect at Broad Ford and Connellsville with Trains for Mount Pleasant and Uniontown.

It is proper to explain that the train, designated "Baltimore Express," leaving at 6:45 A. M., bound eastward, is identical with the "Cincinnati Express" arriving at 11:55 A. M. from Baltimore.

Pittsburgh and Wheeling

The rivalry that was so long and vigorously maintained between these cities anterior to the era of Railways, has long since subsided into the most friendly and cordial commercial and social intercourse; important business relations exist and exchanges of money and commodities are of daily occurrence between these communities. Evidence of this we publish to-day the card of the "City Bank" of Wheeling which proposes to give special attention and prompt remittance to all collections entrusted to its agency. Robt. Crangle, Esq., formerly of this city and well known to our business men has been chosen for his large commercial and financial experience and irreproachable integrity, is President of the City Bank. Mr. James Dalzell, also favorably known among us, is Vice President and Mr. F. H. Eccles file with active promptitude and unobtrusive responsible duties of Cashier. We take as of personal knowledge when we assure our readers of the entire reliability of the "*City Bank of Wheeling, W. Va.*" and commend it as trustworthy and faithful for any kind of financial agency.

Exhibition Drill.

Last evening the Heath Zouaves gave an exhibition drill at their headquarters, Keystone Rink, in the presence of a large audience of ladies and gentlemen who filled the building in every part—save that set aside for the Zouaves. There were about forty men in the drill squad, which was put through the movements by the Commandant of the Company, Capt. Wm. Batchelder, one of the finest drill masters in the State. The Great Western Band was in attendance, and during the intervals, favored the attendants with popular airs, which all seemed to enjoy exceedingly on the occasion. The drill was certainly one of the finest specimens of that character we have ever seen, and displayed a perfection of grace and quickness of movement, combined with the regularity of clockwork which we have never seen surpassed, even by the famous Elsworth Zouaves, who visited the city before the war.

The applause was frequent and hearty, and exhibited the feeling of pride with which the people were animated at the success of a home organization.

A very pleasant episode of the evening was the presentation of an elegant sword, with belt and sash, to Captain Batchelder. Captain Seibert, of the Allegheny Greys, presented the testimonial in behalf of the many friends of the recipient, who responded briefly but with feeling.

The occasion throughout was one of pleasure to the Zouaves and their friends, as well as those who had gathered to witness and congratulate them upon their success.

Daniel Dougherty Esq.

A large and intelligent audience was attracted to Library Hall last evening to hear the celebrated lecture of that distinguished lawyer and rhetorician of Philadelphia, Daniel Dougherty Esq., on "Oratory." The Hon. P. C. Shannon, one of our own most graceful and accomplished orators, introduced Mr. Dougherty in a short but beautiful speech, which was very well received with decided manifestations of approval. Mr. Dougherty then stepped forward and was greeted by the audience with the most enthusiasm. His lecture, which had been heralded in such glowing terms by the press of other cities fully sustained the high encomiums that preceded it, and the large audience had a full realization of the forty expectations that had been excited by the handsome tickets of delivery in other places. It was couched in the most simple and elegant diction, and delivered with the grace of a master rhetorician. We must say in one word, the lecture was brilliant and covered reason and made impressions which will not soon be forgotten nor effaced. It was a suitable closing for the Library Committee provided during the season which has now terminated, and for which we feel profoundly grateful. On our own behalf, and we can safely say on behalf of the intelligent citizens of these cities and vicinity, we return our thanks to the Lecture Committee for their indefatigable and successful efforts in furnishing such splendid intellectual entertainments. And in expressing our thanks, we must not forget the courteous and polite gentleman, Mr. Donaldson, who received the tickets at the door during the season.

THE WHISKY GUILLOTINE.

The Business of Yesterday in the License Court.

It was confidently expected yesterday morning that the meeting of the liquor men of the day previous would have resulted in the appearance of distinguished counsel in the employ of the U. L. D. P. A. to represent applicants for license, but being unable or unwilling to agree at their meeting, they have called another for to-morrow, notice of which is mentioned elsewhere.

AFTERNOON SESSION.

John Cronin, of Twelfth ward, Pittsburgh, has been licensed for thirty years, and will probably be permitted to make it thirty-one.

Fred. Long, of Third ward, Allegheny, has a favorable show for license.

Rachel Kepler, of Monongahela Borough, was rather short of dollars yesterday but successful because of the natural gallantry of the Board towards the fair sex.

Thomas Wade, of the same borough, had but one bed for his family of six. Looka bad for Thomas.

M. Cotton, of Plumb township, had forty-five beds. That's plenty.

Chris. Fromm, Baldwin township, will be equally successful.

George Engleking & Son—East Birmingham, were objected to because no particular house was mentioned in application.

Peter Schiegel of same borough has a better chance to succeed.

Herman Lauch, of same place had a defective petition. Must hire a lawyer and try again.

Henry Wilhelm of East Birmingham, wanted to keep an old tumble down house and we suppose the Board will not object.

John S. Schaffer of Birmingham, has kept a favorable show of success.

Patrick Reagen of Diamond alley, Charles Harbaugh and Frederick Myers of First ward, will get along nicely.

Frank C. Weigand of "Western Hotel," Market street, can stow away steamboatmen for another year.

H. H. Keeland of the First ward will hear from the Board to-morrow.

Thomas Durkin of First ward, kept too many boarders and went under.

Wm. Brill First ward Pittsburgh.

Remonstrance filed and case held over.

Fred. Mildenmyer & Co., (Bank Exchange) First ward, have a good chance to continue business.

Fred. Myers of First ward Pittsburgh. Case held over.

The Board then adjourned until this morning at ten o'clock.

UNDER THE HAMMER.

Sheriff's Sale of "Tae Paper" Machinery and Furniture.

The nails were driven none in the coffin of *The Paper* yesterday by Acting Sheriff, William Diehl, Esq., under whose hammer was sold all of its type, machinery, office fixtures and presses. We had hoped that our short-lived but energetic contemporary, which, while it lived, was creditable to the party it espoused, to the local press here and to the city and State, would be revived again but with the sale of yesterday the enterprise is dead beyond resurrection. *The Paper* establishment throughout was one of the best fitted in the country, indeed from press room to composing room, it was truly gorgeous Walnut cases, Brussels carpets, elegant furniture, and all the appointments in keeping, combined to make this Democratic newspaper office a kind of magnificence and grandeur. But the patronage extended this new paper was limited, and so far as the party was concerned, ungenerous, and the bright dreams of its conductors were never realized and the sheriff came knocking at their doors.

The sale on Saturday was well attended, principally by newspaper men of the city and several from abroad. The press, a modern Cylinder Hoe, which cost about $20,000, was knocked down at $12,200 to T. M. Senior, Esq., representing the Rochester (New York) *Democrat*. The press is entirely new, having been used to print only about seventy-five editions of *The Paper*. Col. Wm. Ramsey sold several thousand pounds of new type at from eleven to thirteen cents per pound, which cost much more, and will bring a handsome profit to the purchaser if sold for old metal. The engine, which cost $750, was sold to Hoe & Co., New York, for $230. The furniture throughout was "picked up" at cheap figures by the different newspaper proprietors in attendance. The sale will hardly net $15,500 all told, and falls far short of meeting the liabilities of the dead journal. Thus closes an interesting chapter in the history of newspaper adventures in this city.

Reliable.

We have so repeatedly called attention to the excellence of the time-pieces manufactured by the Union Watch Company that it seems almost a work of supererogation to call attention to the subject again. But we are reminded of the increasing popularity of these watches, by the fact that they are now the most popular of any for presentation, &c.—a fact which attests their worth more than words, and which induces us again to refer to them, and to call the attention of such who may wish to secure a *reliable* time-piece, to call upon W. G. Dunseath, No. 59 Fifth avenue, sole agent for the United States Company's manufacture. We guarantee they will be satisfied.

OIL NEWS.

Armstrong Run Oil Field.

On Monday last we visited the Armstrong Oil Field and were surprised to see the changes, and improvments since our last visit. New houses met the eye in all directions, while an immense breadth of territory is covered with derricks, and the results of enterprise are visible everywhere. New strikes are the order of the day, and the supply of oil is not only large, but very encouraging to present and prospective operators.

The Emma well, on lease No. 2 Jennings' tract, is a splendid strike. Oil was reached on the 20th inst., since which time it has been pumping regularly 120 barrels per day. It is owned by Dr. J. W. James and others.

The R. S. Wallace well No. 1, Clark farm, struck oil on Friday, the 21st inst., but drilling continued up to Monday last. A large quantity of oil has been discharged, and from indications it will prove a first class well. It is 1,285 feet deep. About 100 barrels of oil have been wasted during the drilling.

Jennings Bros. well averages 20 bbls. per day.

Five new wells are going down on the Armstrong lease.

R. Jennings, Esq., has put up the old "Armstrong" rig on a new lease, and will begin drilling immediately.

Well No. 3 Jennings farm, will be down in fifteen days.

James' well No. 4 has been torpedoed. We did not hear the result.

Reserve and Swan wells torpedoed on the 18th inst.

Well No. 6, Jennings Farm, down 1,180 feet; No. 16 1,100 feet; No. 17 between 1,100 and 1,200 feet; No. 18 Painter No. 1's, between 1,100 and 1,200 feet.

The Wilson well will be down this week.

The Jennings farm derrick being cleaned out. This well has produced a very large amount of oil.

R. Jennings having completed his pipe line to the A. V. R. R., is doing a heavy business. The pump is capable of forcing oil at the rate of 90 barrels per hour, delivering into a three-inch pipe and discharging through a two-inch pipe. On Monday and Tuesday last 2,600 barrels were shipped on the cars; and in June he proposes to deliver from 10,000 to 15,000 barrels.

James well, No. 4, was torpedoed on Wednesday last. We have not heard the result, but have no doubt it proved very good. It has been doing regularly 65 barrels per day.

James well, No. 2, is doing daily about 70 barrels. This well was torpedoed on the 7th inst., and produced 700 barrels in sixteen hours. This well runs down to about 20 or 40 barrels, then she is cleaned out and torpedoed, which brings her up to 100 barrels.

James' Emma well, mentioned above, in two days shipped 250 barrels on the cars.

The Dewy well is doing regularly from 30 to 40 barrels daily.

There were sold during April, from the James wells No. 2 and 3, 7,000 barrels of oil.

The Wolf well, No. 9, Clark Farm, struck oil on Wednesday last, and presents the appearance of having a good deal of oil. It was thrown over the top of the derrick. Andrews, Wolf and Haines are the owners. The sand in this well is similar to that found in the Jennings.

The daily production of the Armstrong Oil Field is averaging 425 barrels.

PARKER OIL FIELD—DUTCHESS FARM.

In this day of wonders in the Parker oil region, many localities have achieved a great reputation. We have had the Parker, Lawrenceburg, Richardson, Fox and Foster oil fields all contributing to the wealth and prosperity and bringing out the energy and capital of the adventurous of all the world. While these territories are still doing splendidly, new and extensive developments are being made. Speculation and fermentation are the order of the day, and the result of recent operations has proven the new locality fully equal if not superior to any yet developed. The exposure of all eyes is the now rapidly developing oil field known as the Dutchess Farm. It is a part of the Bonnell Farm, which has proved superior territory, and judging from the progress making and the quantity of oil produced, will soon create an excitement in the oleaginous world. Four wells are in operation on this tract, any one of which would establish its reputation as good oil producing territory.

The American well struck about one year ago, owned by McFarland and others, is producing daily 14 barrels.

The McKinney and Nesbitt well is pumping from 6 to 75 barrels daily.

The Templeton well, struck three weeks ago, is pumping 75 barrels daily. It is owned by Col. Templeton, Ross Mechling, W. H. Meredith and others, of Pittsburgh.

The Painter well, owned by Painter and Crawford, is doing only 9 barrels, owing to bad management. Had this well been properly handled, it would have proved equal to the best on the lease.

A new well on this farm, owned by Simon Truby, Jr., is within 100 feet of being down. The indications for a good well are excellent. It has plenty of gas.

PORKER LEASE, ROBINSON FARM.

This lease adjoins the Dutchess, and is already proving splendid territory. Well No. 1 is doing 40 barrels per day. Well No. 2 is doing 100 barrels per day. The fee of this farm is owned by Robinson—Forker controlling the working interest. Which he disposed of a few days ago for $40,000.

BLACK FARM.

The Black farm, adjoining the Dutchess, has been purchased by D. Bowman, and the lease is being rapidly developed, leases being given for ⅛ of the oil. It is said by the best oil experts to be the finest undeveloped territory in the Parker oil region.

We can remember when the Dutchess farm was purchased by Ferry & McMinn, two years ago, at what was regarded as very exorbitant figures—$100 per acre. The majority of people condemned it, as purchasing a very wild one; but its value was established, when a short time afterwards they sold thirty acres at $1,000 per acre.

THOMAS FARM.

The Thomas farm comprises 114 acres, and is within half a mile of the Dutchess, and adjoins the Black farm. It is on what is known as the Dutchess farm belt, and developments will soon begin upon it. This tract was purchased about one month ago, by Messrs. Barker, Long & Kip, and is rapidly increasing in value from its proximity to largely productive wells. In fact, all the territory in this locality will soon be operated on, and an immensely rich oil field will be opened to maintain the supply of oil so long afforded by the territory that has yielded so largely, but has to some extent fallen off.—*East Brady Independent.*

Amusements.

ACADEMY OF MUSIC.—A very fair audience as to numbers assembled at this resort last night to enjoy the "School for Scandal." It gave us much pleasure to note the fact that the *élite* of our city thought proper to do honor to the occasion. It is not, perhaps, amiss to say that the Coombs combination has not so far received at the hands of our theatrical *dilletanti* the favor that its sterling merit should have ensured. This has doubtless been owing to the fact that for some reason the Academy of Music has not been accustomed of late to thronged houses.

In extenuation of the somewhat scant audience of the night of the 26th, it should be said that the Coombs combination has a characteristic which is generally regarded as an unpardonable sin—it has been, as yet, unmodest. It has not chosen to blow its horn with the vigor of many less meritorious performances, and the consequence is that people of Pittsburgh were not fairly advised of its claims on their attention until the latter part of the week. Let the excellent audience from the character of the assembly last night and the unmistakable enthusiasm evinced by it, tell where their star is in the ascendant after week houses larger than that of last night, and like it made up of the intelligence and beauty of our city would greet it in every performance.

The "school for Scandal," as all readers of plays know, is perhaps the last and most exquisite production of that dramatic school which was inaugurated by Wycherley, Congreve and other play-writers of the reign of Anne. Sheridan, in the "School for Scandal," has surpassed in it his predecessors in that artificial and highly spiced wit which characterized the school, and has much improved upon its morals. Byron said of Sheridan that he had written the finest play composed by any Englishman, and the praise was predicated upon the "School for Scandal," a production fittingly such a subtle and highly artificial creation requires a very conscientious and painstaking tact and skill on the part of the actors. To render it with any portion of the spirit and grace indispensable to a proper reproduction of the piece involves nice judgement, thorough cultivation and the manners and bearing of people of breeding and fashion.

It gives us much pleasure to be able to say that the persons comprising the Coombs combination to a great extent realize all these essentials. The whole cast was admirably rendered. Miss Coomba as "Lady Teazle" was simply incomparable by any standard of the part which our memory recalls. The "Lady Teazle' of Mrs. Siddons, which was the last one heard in Pittsburgh, is not a circumstance to it. The lady is a most exquisite person and reads admirably. Her acting throughout was in sympathy with the creation of Sheridan. The screen scene was reproduced with delightful tact and spirit, and the actress received the most spontaneous tribute. "Sheridan Surface" of Mr. Frederick Robinson was a fine and vigorous personation. Mr. Bradley's "Sir Peter Teazle," Mr. Collins' "Sir Oliver Surface," Mr. Holland's "Joseph Surface," were all specially good and exhibited a fine grade of dramatic talent.

We have no misgiving whatever but that both matinee and night performance to-day will be attended by crowded houses. For the afternoon "The Honeymoon" will be played and the "Love Chase" in the evening.

PITTSBURGH OPERA HOUSE.—Jack Crook at matinee and evening performance.

FIFTH AVENUE OPERA HOUSE.—An immense olio and dramatic entertainment is offered for the matinee and evening performance to-day.

TRIMBLE'S VARIETIES—Fred Aims presents his usual immense Saturday's bill for matinee and evening.

CITY HALL—There will be unusual attractions at St. Bridget's Fair this evening. Do not fail to be on hand.

THE LOT.—Rosston, Springer & Henderson's mammoth circus and menagerie will open the Red Lion Lot on Thursday evening next. The performing Bedouin Arabs are attached to this circus.

East End Items.

HOPES are entertained in East Liberty that gas will be introduced into that vicinity about the 3rd of June.

WHAT used to be called Boundary street, is in a very unsafe condition for pedestrians. There are openings at intervals in the boardwalk, between the railroad and Penn avenue, which afford ample opportunities for people to drop in. The Street Commissioner will be able to prevent accidents by having it attended to.

The lock-up in East Liberty was without an occupant last night, and it is hoped the social institution also tenantless.

The young men in East Liberty have organized a base ball club. It is called the Keystone, and is now open for challenges from all amateur clubs. All communications directed to the secretary, William Kaye, or the Captain, Joseph L. Berry, will receive prompt attention. They have the old Mutual grounds, and practice every evening.

Personal Recommendations.

We haven't the slightest hesitancy in recommending the merchant tailoring house of Messrs. William Hespenheide & Co., No. 59 Sixth street, for from personal knowledge we are satisfied that nowhere else in the city can our patrons be better supplied with clothing. Everything is well made, and will look well, and will be found to be exactly as represented. Young gentlemen who desire to make a good impression by their exterior, are sure to accomplish that object by purchasing their clothing at Hespenheide & Co.'s, No. 59 Sixth street, near Penn avenue.

Moorhead's, 73 and 81 Market street, is the place to purchase Parasols, Sun Umbrellas, Hats, Flowers and Ribbons.

No Hocus-Pocus.

It seems to be a matter of *wonder* to many persons, and even to *some* medical men, how any one like a correct diagnosis of diseases can be made from examination of the urine.

This wonder ceases with the latter, however, as soon as they learn the fundamental principles upon which these examinations are based, and become practically acquainted with the varied chemical constituents and characteristic appearances of each and of the combined different classes of disease.

When any organ or part of the body becomes diseased, it throws off into the urine a customed share of particles from that part. These separated particles are carried out of the body through the urinary passages, and may by chemical analysis and microscopic examination be definitely ascribed to the precise locality or whence they are derived.

These are practical facts; not merely of value in ordinary cases alone, but scientific ones. Hitherto, much stress has been laid and placed on record numerous instances wherein the correct diagnosis in *obscure* cases depended on *seeing* upon these kind of investigations.

We ourselves, during an experience of over twenty years' practice, have had many individual cases wherein the examination of the urinary secretion alone revealed the true nature of the disease, after all the other well-known methods of the very best physicians of the country had signally failed.

When we propose to detect diseases by an examination of the urine alone, being prepared as we are at our office, No. 132 Grant street, Pittsburgh, with all the chemical and microscopical apparatus for the most scientific manner, we base our proposition *not* upon clairvoyance, spiritualism, hocus-pocus, or legerdemain, but upon the incontrovertible facts, and make our deductions in accordance with the immutable laws of *science*.

Indeed, it is these *facts* alone that give to our peculiar system its true value that stamps it as a *science*. For that only is scientific which is based upon incontrovertible facts.

Asleep Standing.

Have you not wondered why your canary did not fall from his perch while asleep standing upon one foot? Birds have a set of muscles proceeding from the thigh to the toes and passing over the knee and heel, so that the weight of the bird closes the claw and preserves their equilibrium. It is well enough to know this and also very important to know that D. W. Evans, at his Department Store, 59 Fifth avenue, Masonic Hall building, is receiving goods daily from Eastern manufacturers and jobbing houses, and is offering inducements in the way of cheap dry goods, millinery and cutlery that every lady in Pittsburgh should not overlook.

We see that the pavement in front of C. A. Boucher's furniture ware rooms still continues to be blockaded with furniture. If Mr. Boucher's business increment is to keep pace large enough to supply the large trade he has, he should get another house. A trade growing as fast as his, demands that it do so. We notice that he is selling daily several parlor sets, bedroom sets, drawing room sets, being a very ample amount of kitchen and hall furniture, which we are glad to note, as it always does us good to see such houses prosper. But why so many, does he keep on hand? Simply because he strives to please, and manufactures good ware, up to very latest styles, and sells them at a reasonable profit. Consequently those in want of furniture always go to see Boucher's, and once there invariably make a purchase. Mr. Boucher's No. 81 Smithfield, where he is always pleased to see parties wanting anything in his line.

We have heard some merchants say that in order to satisfy or to convince people that goods are cheap and good, a high price must be charged. Such ideas disgrace with the line of policy, and believes that the best class of customers know what they are buying. Every effort has been made at the Department Store to enable customers to satisfy themselves without the advice and opinions of salesmen. Any person can read over the article in his store, and ascertain its price, without asking a single question. Those who have need of any thing in the optician cutlery, fancy goods, jewelry or notion line should pay this establishment a visit. D. W. Evans, Department Store, 59 Fifth avenue, Masonic Hall Building.

The neatest, as well as the most popular, store for misses' and ladies' shoes is the shoe house of H. Yeager, No. 178 Liberty near Market. This house manufactures the best fitting walking boot and shoe in the city, and the stock to select from is very beautiful. We can't help but ask the ladies to visit this store before making any purchases.

By this time all are aware that D. W. Evans has a thousand beautiful articles that he is selling at his Department Store at half-price.

"The little church around the corner" has become famous as a designation for the church to which the most worthy worship. It is also the large clothing store on the corner—southeast corner of Wood street and Fifth avenue. Messrs. Lindsay, Follansbee & Co. are the firm known as the establishment where the people who wish to get neat fitting gagments, at moderate rates, can be supplied.

To prevent sickness by the rapid changes of the weather incident to the season, go at once to Will T. Wiley's, No. 61 Fifth avenue, and procure a pair of boots or shoes which will keep the feet dry and warm, and thus avoid colds and fevers. They are beautiful. We don't forget a supply of shoes here, for the prices are beyond the lowest expectations.

SEVERELY SCALDED.

A Man Falls Into a Vat—Terribly Injured.

Yesterday afternoon a most frightful accident occurred at the Franklin Cotton Mills, Allegheny, E. Hyde & Bro., which may yet result fatally. The mill is located between Robinson and Lacock streets, near the site of the old Pearl Mill. During the afternoon one of the employes Mr. Henry McKnight was engaged about a vat, filled with dye stuff, boiling, when by some means he missed his footing and fell in, the fluid scalding him up to the neck. His screams attracted the attention of the others and in a moment he was rescued, but not before he was scalded so severely that life was despaired off.

Dr. James Herron was immediately summoned and attended him, but medical aid could do but little to alleviate his sufferings. He was removed to his home on McKains alley off Beaver street, Allegheny, where he was still living at last accounts, but in a very precarious condition.

McKnight has a wife and children.

RUN OVER BY A WAGON.

Almost Instant Death—Coroner's Inquest.

About five o'clock yesterday evening a dreadful accident occurred to a man named Timothy Donovan, by which he met with a sudden and untimely death. He was engaged in driving a team for Peter O'Neill, who has a contract for grading and paving Grist street. While the accident occurred he was driving the horses up to the edge of the dump, which is about twenty-five feet deep, when they took fright and off with the harness. He got down to see what was the matter, and went between the horses. The animals started off and ran down the dump. The man was thrown under the horses and wagon, and partially buried in the earth. The horses bruised his bowels and broke the bones of the pelvis. Dr. Thorn attended to him. He died in a short time. He was about thirty years of age, and leaves a wife and one child. He resided at No. 27 Webster avenue.

Coroner Kennedy will hold an inquest.
